# A Legacy Built on Quality & Trust

**Labake Foods Limited** was founded in 1970 by Mrs. Eniola Ayodele Olubobokun, a visionary entrepreneur, who built the company from a humble catering operation into Nigeria's foremost indigenous industrial catering powerhouse.

Over five decades, Labake Foods pioneered partnerships with International Oil Companies - becoming the **first indigenous catering company in South-South Nigeria** to serve the oil and gas sector. Today, Labake Foods Limited (LFL) is a full-service catering and allied services company trusted by multinationals and government agencies alike.

We combine deep sector expertise with genuine culinary passion - serving oil and gas giants, maritime operators, government agencies, construction firms, healthcare institutions and more. We understand that when your people are fed well and your facilities run smoothly, your operations thrive. That is the Labake Foods difference. We are your dependable and reliable catering and allied services partner, no matter your location.
